

## WNY Schools celebrate Columbus Day

"In 1492 Columbus sailed the ocean blue," and in 2009 the students of West New York celebrated Columbus Day -Oct. 12 - by learning about the history of Christopher Columbus and his voyage to the Americas.

Throughout the day students listened to documentaries about Christopher Columbus via the websites of the History Channel and Discovery Education's United Streaming links. Other classrooms read about the famous explorer and worked on Columbus Day activities.
