

West New York Schools present "The Wizard's Apprentice and the Magic Bookmark"

In support of our district's continuing efforts to engage parents to best address the needs of their children, the Title I Parental Involvement Program at each elementary school invited the parents of third and fourth grade students to attend a special presentation entitled ***The Wizard's Apprentice and the Magic Bookmark***. Willard, the Wizard of Wisdom, taught the audience that the greatest secrets to magic and life are to possess good reading skills and to know how to find the books in the library. This bonding experience created a wonderful opportunity for parents and children to have ongoing conversations about literacy at home.
