

## 2009-2010 TECHNOLOGY LITERACY ASSESSMENT RESULTS

### Grade 8

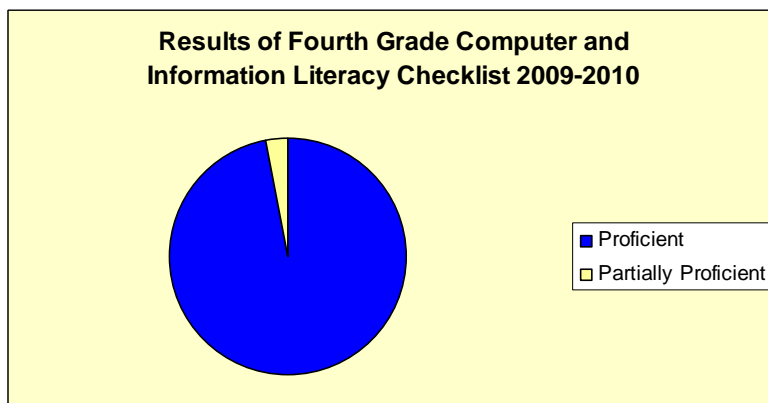

All students in Grade 8 were assessed in technology using the Computer and Information Literacy NJTAP-IN rubric. This year 8% of our eighth grade students were advanced proficient, 88% proficient, and 4% of these students were partially proficient.

## 2009-2010 TECHNOLOGY LITERACY ASSESSMENT RESULTS

### Grade 4

All students in Grade 4 were assessed in technology using the state-approved Fourth Grade Checklist for Computer and Information Literacy to assure that each student was proficient according to the New Jersey Core Curriculum Standards for technology. This year 97% of our fourth grade students were proficient in technology.

The following chart lists the Grade 4 computer and information literacy assessment results by percentage of proficiency in each of the elementary schools in the West New York District:
