### "The Wizard's Apprentice" Presentation

### PS#4 receives visit from Farmer Mike

On Thursday, December 2nd, Farmer Mike visited PS No. 4 to talk to the children about the Fresh Fruit and Vegetable Program. This program provides free fresh fruit and vegetables throughout the school day in participating elementary schools. The purpose of this program is to increase the variety of fruit and vegetables children consume and experience while educating the children about nutrition and healthy eating habits at the same time.

Together with Farmer Mike, Sal Valenza, regional director for Nu-Way Concessionaires and food service director of the West New York School District, and Kim Gray, District Chef, answered excellent questions from the very enthusiastic audience. The assembly culminated with the dissemination of baby carrots to each child. [Click here](#) to view more pictures.
