

## April 2011 News

### NASA Visits Public School #5

On April 12, 2011, a representative from the National Aeronautics and Space Administration (NASA) visited Public School Number 5. Mr. Al Conde is a former student of PS#5, a member of the Human Space Flight Program and a Technology Integration Manager for NASA. Mr. Conde elaborated on his educational path to success and the variety of projects he has worked on at NASA during his visit. He informed the students that his foundation of learning all started at Public School #5 and being a part of the West New York community was very special to him. Mr. Conde also spoke to the students about setting short and long term goals, and the significance of working hard to achieve those goals. [Click here](#) to view pictures
